## WORK EXPERIENCE

### ▸ Front-End Developer

Genrichers Innovations Private limited - Chennai.

11 Sept 2023 - Present

Technology : Next.js, TypeScript, Material-UI (MUI), SCSS

Project : Impacteers

### ▸ Front-End Developer

Leadtech Solutions Pvt Ltd - Chennai.

2 years 1 months

Technology : HTML5, CSS3, React Js.

Project : iFACT – Integrated Freight forwarding, Agency and Cargo Logistics

## PROJECT DETAILS

### Impacteers

- Led frontend development for integrated freight forwarding solutions, contributing to a 30% improvement in user workflow efficiency through intuitive UI and optimized component structures.
- Developed high-performance web applications using Next.js, achieving faster load times (up to 40%) and seamless navigation.
- Collaborated closely with UI/UX teams to build modern, accessible interfaces, ensuring WCAG compliance and improving user engagement metrics.
- Integrated RESTful APIs and ensured mobile responsiveness, which helped reduce support tickets related to UI issues by 25%.
- Enhanced user experience by contributing extensively to React.js components, improving component reusability and performance.
- Managed frontend tasks in logistics and cargo management projects, driving better coordination and reducing development turnaround time by 20%.

### iFACT – Integrated Freight forwarding, Agency and Cargo Logistics

- The Project deals with the online freight forwarding business.
- Freight forwarding is done by Ocean Imports and Exports, Air Imports and Exports.
- The users can generate Job, Quotation, Booking, Invoice, Our BL, Liner BL, BL Release, Outstanding, Cargo and Containers.
- One can easily take monthly reports, volume and revenue by customer wise and by port wise and many more.
- The main aim of developing this project is to bring the users online from various branches, and store the data in one single location.
