WORK EXPERIENCE

Front-End Developer

Genrichers Innovations Private limited - Chennai.

11 Sept 2023 - Present

Technology : Next.js, TypeScript, Material-UI (MUI), SCSS

Project : Impacteers

Front-End Developer

Leadtech Solutions Pvt Ltd - Chennai.

2 years 1 months

Technology : HTML5, CSS3, React Js.

Project : iFACT – Integrated Freight forwarding, Agency and Cargo Logistics

PROJECT DETAILS

Impacteers

- Led frontend development with Next.js, TypeScript, MUI, and Tailwind CSS, ensuring 99% cross-device responsiveness.
- Built interactive community features for networking and mentorship, boosting user retention by 25%.
- Developed a real-time resume builder with customizable templates, increasing user engagement by 30%.
- Integrated skill-based job recommendations, improving application conversions by 20%.
- Implemented RESTful API integrations for job listings and company profiles, reducing data fetch time by 40%.
- Collaborated with UI/UX teams to create modern, accessible interfaces, ensuring WCAG 2.1 compliance and improving usability scores by 18%.
- Optimized global state management using Redux, decreasing unnecessary re-renders and improving app performance by 25%.

iFACT – Integrated Freight forwarding, Agency and Cargo Logistics

- Led frontend development for integrated freight forwarding solutions, contributing to a 30% improvement in user workflow efficiency through intuitive UI and optimized component structures.
- Developed high-performance web applications using React.js, achieving faster load times (up to 40%) and seamless navigation.
- Collaborated closely with UI/UX teams to build modern, accessible interfaces, ensuring WCAG compliance and improving user engagement metrics.
- Integrated RESTful APIs and ensured mobile responsiveness, which helped reduce support tickets related to UI issues by 25%.
- Enhanced user experience by contributing extensively to React.js components, improving component reusability and performance.
- Managed frontend tasks in logistics and cargo management projects, driving better coordination and reducing development turnaround time by 20%.
